PROFILE

Computer Science student at Lebanese University with a strong foundation in programming, algorithms, databases, and software development. Completed the second year of the Bachelor's degree with practical experience in backend development, API creation, and database management through an industry internship.

Passionate about technology education, artificial intelligence, and software development. Developed strong communication, teamwork, and leadership skills through technical projects and entrepreneurship training. Interested in opportunities that combine engineering knowledge with teaching and mentoring.

EDUCATION

Lebanese University – Faculty of Sciences

Bachelor's Degree in Computer Science

2024 – Present

Completed Second Year

Relevant Coursework:

- Data Structures & Algorithms
- Object-Oriented Programming (Java)
- Imperative Programming (C)
- Database Management Systems & SQL
- Web Development
- Computer Networks
- Operating Systems

- Computer Architecture
 - Graph Theory and Relations
 - Logic Programming
 - Mathematics & Statistics
-

TECHNICAL SKILLS

Programming Languages:

C, Java, Python (Currently Learning)

Backend & Databases:

ASP.NET Core Web API, C#, Entity Framework Core, SQL Server, Database Design, SQL Queries

Web Development:

HTML, CSS, JavaScript, DOM Manipulation

Tools:

Git, GitHub, Linux (Basic), Visual Studio Code, SQL Server Management Studio

Core Skills:

Problem Solving, Debugging, Communication, Teamwork, Fast Learning, Technical Explanation

EXPERIENCE

Backend Development Intern

Allied Engineering Group (AEG) – Lebanon

Summer 2026

- Developed backend APIs using ASP.NET Core Web API.
- Designed and managed database structures using SQL Server and Entity Framework Core.
- Worked with database relationships, CRUD operations, and API testing.
- Gained experience with backend architecture, debugging, and Windows Services concepts.
- Applied software development practices in a professional engineering environment.

Research Intern

Centre for Asian and Chinese Studies – Lebanon

Summer 2024 (2 months)

- Assisted in organizing and structuring research materials.
- Supported data organization and documentation for ongoing research activities.
- Worked with digital tools to improve information management and workflow.
- Developed professional communication and collaboration skills.

PROJECTS

Web Development Project

- Built a responsive website using HTML, CSS, and JavaScript.
- Implemented interactive features using JavaScript DOM manipulation.
- Used Git and GitHub for version control and project tracking.

Computer Science Projects

- Developed programming solutions using C and Java.
- Applied data structures and algorithms including linked lists, recursion, sorting algorithms, trees, and problem-solving techniques.
- Designed database solutions and practiced relational database concepts.

CERTIFICATIONS

Entrepreneurship Readiness & Soft Skills Enhancement Training

Generation of Innovation Leaders (GIL) Program – UNICEF & Nawayya Network

April 2026

Microsoft Office Certification

LANGUAGES

Arabic: Native

English: Upper-Intermediate

INTERESTS

- Artificial Intelligence
- Machine Learning
- Data Analysis
- Software Development
- Technology Education and Mentoring
